Feel more prepared for appointments and changing care needs

Hello,

We would like to let you know about **Care65**, a preparation app for older people and those who support them.

Care65 can help you remember what matters, keep track of changes and prepare a clear Care Summary, so you feel more prepared for appointments and changing care needs. You choose what to record and whether to share or discuss it.

Do not wait until an appointment or an assessment is booked. You can begin recording changes as they happen.

Your information stays on your device unless you choose to export, back up or share it.

Start your free 14-day trial:

Care65 is a preparation tool. It is not a medical service, clinical record or emergency service, and it does not replace professional advice.

Kind regards,
